Each of the six tenses has an additional form called the *progressive form*, which expresses continuing action. It consists of a form of the verb *be* plus the present participle of the verb. The progressive forms of *fly* follow.

<i>Present Progressive</i>	am, are, is flying
<i>Past Progressive</i>	was, were flying
<i>Future Progressive</i>	will (shall) be flying
<i>Present Perfect Progressive</i>	has, have been flying
<i>Past Perfect Progressive</i>	had been flying
<i>Future Perfect Progressive</i>	will (shall) have been flying

Remember: the progressive is not a separate tense but an additional form of each of the six tenses in the conjugation.
